Founded in 1935, UPSA is today both a mid-sized company with one of the largest pharmaceutical industrial sites in France located in Agen and a committed brand, present with patients and pharmacists for 90 years.

With its range of self-medication products and medical devices, UPSA enables patients to treat common everyday ailments. Its expertise covers six therapeutic areas: pain and fever (historical specialty), Cough & Cold and respiratory issues, digestion, sleep disorders, vitality, and women's health. UPSA embodies regional roots and the
